# ***About JOSHUA & Its Transformational Justice Task Force***

## **Current Projects**

**MISSION** JOSHUA builds relationships in the public and private sector to advance issues that align with our core values. JOSHUA inspires and equips people to work together on systemic justice issues in Northeast Wisconsin.

**VISION** JOSHUA envisions a fair and equitable future where everyone in Northeast Wisconsin is an active participant in building a strong and healthy community.

**VALUES** JOSHUA's core values are essential to our vision. Although we are composed of diverse faith based organizations, we welcome people of all backgrounds. We believe in the Inherent Worth & Dignity of Every Human Being. We believe in Equity, Education, Advocacy, Racial & Social Justice, and Community & Relationship Building.

We have partnered with the GBPD and Religious Leaders Caucus for holding prayer circles in hopes of reducing community violence.

EXPO, our affiliate, worked towards getting two vendors, instead of one, for prisons to allow people more options instead of a monopoly.

The primary goal is to meet monthly to discuss our new findings.
